

# Gunjan Pandey

+91 72087 05524 | gunjanap2018@gmail.com | Bhayander West, Maharashtra 401101

## SKILLS

**Programming languages:** PHP, Python, JavaScript

**Framework:** Laravel, FastApi, Reactjs, jQuery

**Testing Framework:** PHPUnit

**Databases:** MySQL, MongoDB

**Microservices:** Redis, RabbitMQ

**DevOps:** Docker, Github Action, Kubernetes

**Version control:** GitHub, GitLab

**Cloud:** AWS (S3, EC2, RDS, VPC)

**Security:** Nmap, Nikto, OWASP Top 10

**Gen AI:** LangChain, LangGraph, ChromaDB, Ollama

## SUMMARY

Backend software engineer passionate about building **scalable microservices**, **secure web applications**, and **reliable API** integrations with a strong focus on system design and performance.

Actively working in **DevOps and GenAI**, leveraging Docker, Kubernetes, CI/CD, LLM-based systems, and **Web Security** best practices to build production-ready, maintainable solutions.

## EXPERIENCE

### Software Engineer, ImpactGuru

*Mumbai, Maharashtra*

Nov 2025 – Present

- Built and maintained campaign creation, fund-tracking, and reconciliation systems for a **large-scale crowd-funding platform**.
- Integrated Razorpay, Paytm, Checkout, and Stripe with support for UPI, cards, and net banking, **ensuring secure and reliable payment processing**.
- Developed reusable payment integration modules, donation matching, and social sharing features with **automated tests to ensure scalability and maintainability**.
- Worked on **Kubernetes-based microservices architecture** with CI/CD pipelines, following **TDD** (Test-Driven Development) practices to automate testing and improve deployment confidence

### Software Developer – Backend, Qtech Software

*Mumbai, Maharashtra*

Sep 2023 – Aug 2025

- Integrated multiple APIs for flight booking, ensuring **smooth simultaneous testing and onboarding of new services**.
- Developed features for hotel booking and listing modules, **integrating third-party hotel booking APIs**.
- **Collaborated with Agentic AI** to revamp and review the codebase and integrated APIs for booking document reviews.
- Prevented SQL injection attacks by using parameterized queries across all products, resulting in a **10% improvement in overall security**.
- Conducted web **vulnerability assessments** and utilized tools like Nmap, Nikto for **security analysis**.

### Software Developer – Backend, IThink Logistics

*Mumbai, Maharashtra*

Oct 2021 – Jul 2023

- **Utilized RabbitMQ** for efficient email processing and background job handling.
- Contributed to projects including a **KYC onboarding system** and **new logistics integrations**.
- Worked on an order booking and tracking system, **integrating multiple third-party services**.
- **Utilized Redis** as a caching system to prevent duplicate tracking.
- **Revamped old modules**, adopted new testing techniques, and strengthened collaboration and software architecture understanding.

## RESEARCH & DEVELOPMENT

**Project Name:** Blog Generation

**Description:** Developed an AI-powered system that generates blogs based on **user-selected topics using LLMs with structured prompt workflows**.

**GitHub:** <https://github.com/gunjan-pandey1/genai-blog-generation>

**Tech Stack:** Python, FastAPI, MongoDB, Reactjs, LangChain, LangGraph, ChromaDB, GroqAI, Docker, Github Actions, K3s.

**Project Name:** Medical ChatBot

**Description:** Developed an AI-powered medical chatbot supporting **tool calling, context-aware conversations, and multi-step reasoning workflows** to provide structured responses to user health-related queries.

**GitHub:** <https://github.com/gunjan-pandey1/genai-chat-bot-main>

**Tech Stack:** Python, FastAPI, MongoDB, Reactjs, LangChain, LangGraph, ChromaDB, GroqAI, Docker, Github Actions, K3s.

**Project Name:** NoteBookLLM

**Description:** Developed a **Retrieval-Augmented Generation (RAG)** based document assistant enabling document ingestion, **vector search, context-aware Q&A, multi-step reasoning, and tool calling** to generate responses grounded in uploaded knowledge sources.

**GitHub:** <https://github.com/gunjan-pandey1/laravel-notebook-llm>

**Tech Stack:** PHP, Laravel (AI - Reverb), Pgvector, Reactjs, GroqAI, Docker, Github Actions, K3s.

## EDUCATION

Bachelor of Science in Information Technology

University of Mumbai, Maharashtra, India

May 2021
